

Carrier Commercial Leasing Program

Carrier is a world leader in ensuring comfort and peace of mind through innovative heating, ventilation, and air-conditioning (HVAC) systems. And just like our customized HVAC solutions, Carrier's financing program creates an individualized lease plan based upon your company's specific needs and budget requirements.

Benefits of Lease Financing:

- *Leasing conserves capital:*
Your cash is not tied up in equipment equity, freeing up the capital you need to compete in today's markets.
- *Convenience:*
Carrier offers you turnkey financing arrangements so you do not have to go through bank applications or budget committee review.
- *Upgrade flexibility:*
Cash purchases or bank financing lock you in while leasing enables you to upgrade HVAC equipment during the lease term.
- **NEW FOR 2018** *Tax advantages:*
Section 179 of the IRS Code allows you to deduct 100% in the first year qualified HVAC equipment purchases.
- *Leasing includes cost of acquisition:*
Your payments can include the costs of delivery, installation, and other service charges.

It is an easy, simple process to get approved and funded. Receive financing from the experts who understand your HVAC situation. Please **Apply Now** to be directed to our application.
